

reasons to trade
at EPEX SPOT

1

24/7 client support, geographical proximity

EPEX SPOT offers 4 Service Hotlines, dedicated to auctions and continuous, in 4 different languages and locations (Amsterdam, Paris, London & Leipzig). With a solid regional footprint, we remain close to our clients with 15 EPEX/EEX Group offices in Europe.

Best-in-class API solutions

EPEX SPOT's API solutions are the preferred tool to boost your trading experience on our M7 continuous and ETS auction trading systems – providing scalability and high resiliency to system load, technical support from our most qualified experts, and compatibility with the largest community of certified ISVs.

2

3

Data & reporting services for more transparency and efficiency

EPEX SPOT offers a complete range of market data, indices and reporting services for members: subscriptions for daily data updates as well as a unique close-to-real-time data access, one-shot historical data access and certified REMIT reporting – all offered to fit your needs.

4

Most performant and liquid European Intraday continuous market

Up to 1,000,000+ offers submitted every day on our EPEX SPOT Intraday market, powered by the highest performing M7 trading system. On our platform, members benefit from unique trading functionalities and order types, the most liquid orderbook in Europe from opening to delivery time, and record-high availability rates, 24/7, to support the most advanced trading strategies.

Innovative local auctions

EPEX SPOT's wide range of Intraday auctions are the perfect tools to optimise with high flexibility your intraday portfolio while benefitting from a robust reference price. In Germany, EPEX 15 minute Intraday auction already counts for 13% of the intraday traded volumes, while in GB, our 30 minute auctions represent 20% of the total Intraday volumes. Since April 2019, two additional Intraday auctions in Switzerland complete this offer.

6

The widest range of trading products

EPEX SPOT auctions allow hundreds of combinations of linear orders as well as unique smart & big blocks:

- Loop blocks to optimise your storage facilities, only offered at EPEX
- Largest blocks up to 1300 MW to market your physical assets or big positions
- Curtailable blocks adapted to your thermal units
- Richest Linked & Exclusive blocks to sophisticate your optimisation strategy

5

7

Automatic physical fulfilment of Power Futures

EPEX SPOT offers to all its members an economical, straight-through, and fully secured service of physical fulfilment on its Day-Ahead auctions, for Phelix-DE, Phelix-AT, FR, CH, BE and NL Financial Power Futures traded on EEX.

Reduced clearing costs

EPEX SPOT members recorded up to 2/3rds of collateral savings, thanks to cross-commodity margining offered to all members active on both EPEX SPOT and other EEX Group spot exchange partners, all cleared by ECC Clearing House.

8

9

Robust Day-Ahead reference price

The high resiliency, liquidity, and operational stability of EPEX SPOT Day-Ahead auctions ensure the finest quality for your Day-Ahead prices, which are preserved even in the cases of market coupling fallback in the CWE region.

Secured trading & risk management

At EPEX SPOT you can trade with confidence at each step of the process: starting from key safety settings and trade cancellation possibilities on our trading systems; to proven default risk management with our trusted Clearing House, ECC. Not forgetting Market Surveillance which ensures the highest standards with their proven expertise – for a marketplace that you can trust.
